

PRESS RELEASE:

EXEMPLARY FOAM SOUTH

For Release Monday December 2, 2013

Teach Enterprises Holdings Corp announces a new facility, Exemplary Foam South, in Cleveland, TN.

Teach Enterprises Holdings Corp, dba Exemplary Foam, a leading fabricator of foam components for the returnable and expendable packaging industry, announces that Exemplary Foam South LLC officially opened December 2, 2013, in order to provide even more responsive service to our customers.

The 42,000 square foot building in Cleveland TN has two 4 head water jets, three die presses, a skiver, convoluter, band saw and slitter. Other machinery will be added soon, specifically but not limited to a CNC router. Making Exemplary Foam South ideally suited for producing dunnage for the expendable and returnable packaging industry.

Steve Walker, a native of Cleveland, TN with 15 years experience in the foam industry, joins the Exemplary family as General Manager at this location. He is looking to add at least 20 employees to the facility.
